Alternatively, if the money isn't available to transfer from a different "business" account, I would characterize the \$5,000 as a loan to Owasco and then when the money is available pay yourself back the \$5,000.

Yeah, the advantage is you want the money for Owasco to come from a "business" related account. Otherwise, you may as well not own the car through the corporation. Even if the money ultimately came from a "business" account to USAA it will be a little convoluted from a bookkeeping point of view when it comes time to do taxes.

Adding Eric. Eric indicated there may be an advantage to having this come pre-tax (so not from your personal account). Let me know what you guys want me to do!

Right now, we need \$4,875 to cover bills through end of June (\$1,701.73 for the Porsche on the 24th and then \$3173.06 for June's bills).

2 other outstanding bills not included in this amount:

Morgan Wingate- \$1,610

RSA- \$3025.38
